Hi Leland,

Could you also forward me a copy of the piezometer data that you had sent along to Dale Harbor? I would like to review these data prior to our upcoming site visit on June 29th and 30th. I've spoken to Chris Hansen in detail about our site visit on these days but just in case you need an update, the plan is to visit the area and look at the subsidence issues in the East Fork of Box Canyon and evaluate the springs that have shown declines in flow. The Forest Service also has concerns about losses in some riparian areas, which I am interested in hearing about and seeing. OSM will be there as well, but their purpose is more along the lines of evaluating water replacement.

On June 30th, the plan is to accompany the Division of Water Rights to examine the springs in the Greens Hollow tract.

Let me know if you have any questions...see you next week.

April:

It doesn't look like Leland sent a copy to you, so here it is.

Subject Northwater Pizo data

Dale,
Here is the data that you have requested. If you have any questions please let me know.
Thanks
Leland
